Lower Rio Grande Water Users Organization - nothing new to report

<u>EBID Surface Water Plant:</u> - Our Source Water Protection Plan is complete. No news from EBID.

2017 Legislature: 2017 Legislative Report is available on the Directors Only Page. Our bill is SB 110, and it is also available on the Directors page. The bill has passed and been sent to the governor for signature.

<u>As Needed Engineering Services:</u> Currently we have 4 active Task Orders: 1. <u>Huit Zollars</u> to prepare bid documents for tank inspections (tank work to begin 3/20/17), <u>2. Vencor Engineering</u> for developing design standards was just issued on 2/6/17 and first batch is complete, <u>3. Vencor Engineering</u> for establishing GPS coordinates and mapping for all of our system components was issued on 2/6/17 and completed, Phase 2 was issued 3/7/17 and is underway, and <u>4. Bohannan Huston, Inc.</u> for work on renewal of the Organ discharge permit. Vencor completed a Task Order to adjust the outer boundaries of our voting districts to include new customers. <u>Another task order will be developed</u> to adjust boundaries between districts once we determine if boundaries between districts need to shift to maintain equal representation.

Data Gathering for Water Audit: Water audits are now a requirement, and after working with BECC & DB Stephens on our first audit and working with our staff on the second, I'm working on a revision of our tracking spreadsheet for water usage and sales and other data necessary for a water audit. Will be meeting with other departments to finalize this revision and determine procedures in preparation for the 2016 water audit.

2017 Board Election: Angle, Liza and Yessenia are continuing to work on inputting district numbers into customer records in Tyler software. They have completed the districts included in the 2017 election, and the election roster and list of candidates have been submitted to the DAC Bureau of Elections.
